

I am grateful for the Beauty for Ashes ministry. The freedom, tools, and resources that were provided have continued on in my life. Before this ministry, there were many things I was unaware of as a Christian. I received the gift of the baptism of the Holy Spirit along with empowerment that has allowed me to walk in confidence. The confidence that has been provided to us through Father God. I learned of my authority and how to implement it in my everyday life. I was living in a life of torment through fear and have been set free from that. When the enemy tries to put that stronghold on me I am now able to recognize it. The love, care, and desire to set people free and show them what God wants for them through this ministry is so needed. It has been a tremendous help to me. And through my freedom, it has trickled on to my family. I have freedom, empowerment, and the ability to love and help others now through discovering all of these things after meeting with this ministry.
